**Directory  
of Scientific-Periodicals of Georgia**

**(As of 2020)**

Tbilisi

2021

1

The directory contains the bibliographies of 149 international scientific periodicals that have been assigned ISSN by the ISSN International Centre and the Georgian National Centre and which reflect to a certain extent their preparedness for entering international scientific literature databases. The publication details are taken from official journal websites, are publisher-checked and certified. The directory data served as a basis for the Georgian scholarly journals' monitoring and identifying the international scientific literature database entry criteria: publications' peer-review, periodicity, independent website, international editorial board membership, DOI (Digital Object Identifier) assignment, the state of indexing in academic databases, etc.

## **Definitions**

The directory contains active periodicals, the ISSN of which is registered with the Georgian National Center and certified by the ISSN International Center;

The directory does not include publications in the humanities; Information about the publication is taken from the official website of the magazine, verified and confirmed by the publisher;

The title of the scientific journal in one or more languages is identical to the actual title of the publication;

The Scientific Field Classifier (FOS) of the Organization for Economic Co-operation and Development (OECD) is used to determine the thematic affiliation of a scientific journal;

An asterisk on the website address (URL\*) of some publications indicates that the journal has an independent site;

The number of members in international editorial boards is given by a sum of two digits, the first of which indicates the number of members from Georgia, the second - from abroad.
